

NEW FORESPAR® WHISKER POLE

#407101 ADJ 7-15 DL for boats up to 28 feet (8.5m) in length.

This new pole eliminates the need for two existing poles:
#408100 LC 8-14 EL-UXP & 407100 ADJ 7-17 DL.

The new ADJ 7-15 DL is considerably stronger than it's predecessor (ADJ 7-17) yet much lower in price than the LC 8-14. Now all boats up to 28 feet (8.5m) can use this stronger, less expensive pole. You can eliminate 2 inventory line items while offering the consumer a stronger, lighter and less costly pole.

Immediate availability!

Please delete part numbers 407100 and 408100 as they have been discontinued and replaced by the new pole.
