

FORESPAR'S ULTRA SERIES™

Represents the cutting edge in spinnaker pole end fitting technology. Designed for high strength, very light weight and resistance to wear and corrosion the **Ultra Series™** composite end fitting is perfect for aluminum or carbon fiber spinnaker poles and whisker poles. The **Ultra Series™** is the sailor's choice for inshore and offshore racing and cruising. Available with or without triggers. Maximum LOA Boat Outboard End - 43'. Maximum LOA Boat Inboard End - 36'. All larger boats use GP Series.

*Trip line is Spectra™ with terminal eye strap included. Length is sufficient for standard pole lengths based on diameter.

Part No. w/trip*	For Pole Model No.	Fits Diameter	Tube Inside Dimension	End Fitting Length	End Fitting Weight
304054	UXP-150-EF	1.500"	1.370"	2.750"	6.97 oz.
304050	UXP-200-EF	2.000"	1.870"	2.750"	6.97 oz.
304060	UTR-200-Ef	2.000"	1.870"	2.750"	6.97 oz.
304051	UXP-250-EF	2.000"	2.334"	3.125"	9.25 oz.
304061	UTR-250-EF	2.500"	2.334"	3.125"	9.25 oz.
304052	UXP-300-EF	3.000"	2.835"	3.000"	11.92 oz.
304062	UTR-300-EF	3.000"	2.835"	3.000"	11.92 oz.
304053	UXP-350-EF	3.000"	3.260"	3.625"	15.72 oz.
304063	UTR-350-EF	3.500"	3.260"	3.625"	15.72 oz.

*All ultra ends require minimum 1.500" inside diameter rings to function properly. Undersized rings will damage ends and void warranty.

OFFSHORE SERIES GRAND PRIX END GP & ULTRA SERIES™-GPS

The **UGPS** end fitting comes with a stainless steel lined throat. As Always, this deluxe oceanracing end fitting features a wide flared throat. Both the **UGPS** ends also feature our proven spring loaded piston systems with roller for positive lock and release.
